IMPORTANT DATES

- Saturday, August 8: Registration via MyCharleston reopens to all students at 8:00 a.m.
- Monday, August 24: New Student Convocation & Campus Welcome Activities
- Tuesday, August 25: First day of Fall full semester and Express-1 classes
- Thursday, September 10: Last day for faculty to submit Individual Enrollment and Bachelor's Essay applications to the Registrar's Office. Please submit proposals/syllabi to Dr. Tim Callahan and Kristen White by September 7.

KUDOS

Kudos to Dr. Teddy Them for a new paper in Earth and Planetary Science Letters titled "Sedimentary host phases of mercury (Hg) and implications for use of Hg as a volcanic proxy." Explosive work, Teddy!

Team work makes the dream work. Dr. Bobby Boessenecker and Geology alumnus Jonathan Geisler '95 were recently published in Current Biology. The paper features an ancient giant dolphin Ankylorhiza tiedemani from the Oligocene of South Carolina. The nearly complete skeleton was discovered by Geology alumnus Mark Havenstein '88 and acquired and painstakingly prepared by Mace Brown. Check our The College Today article here. Great work, everyone!

Our very own Sarah Boessenecker was nominated for and won Runners Up for the 2020 Staff Employee Award! Well deserved, Sarah!

Congratulations to undergraduates Nathan McCuen and Aika Ishimori (and mentor Dr. Bobby Boessenecker) on their publication in the Canadian journal Vertebrate Anatomy Morphology and Palaeontology. A truly outstanding accomplishment!

CofC Geology alumnus Ryan Hawsey '18 recently became the first BEAMS Program graduate to earn a Category A Hydrographers Certificate. Ryan will graduate in August from the University of Southern Mississippi with a Master of Science degree in Hydrographic Science. Thank you for being an inspiration to BEAMers, Ryan!

FALL COURSES AND REGISTRATION

Registration via MyCharleston is currently closed to continuing students in order to accommodate New Student Orientation. If you need assistance registering for a Geology course, email Kristen White (whitekl@cofc.edu).

BACK ON THE BRICKS

Excited to return to campus? Have questions about the process or safety measures? Visit Back on the Bricks for the College of Charleston's Plan for Fall 2020.

Keep Calm and Color

Coloring isn't just for kids! Pick up some coloring pencils and release some creative energy with these National Parks coloring pages!

Digital Swag

Download College of Charleston Geology & Environmental Geosciences mobile wallpapers and Zoom backgrounds here! Don’t see a fav design? Send an email to Kristen White with special requests!

UPCOMING WEBINAR

"The Geoscience Workforce: Current Trends and Impacts from COVID-19"

- Friday, September 18 at 1 pm EDT
- Register here

JOB OPPORTUNITIES

National Fish and Wildlife Foundation

- NFWF seeks two qualified individual Contractors
- Deadline for proposals is August 21st
- Develop and implement a work plan designed to maximize the outcomes of the National Coastal Resilience Fund
- Click here for more information

Master’s or PhD Student Opening - College Park, MD

- The Planetary Volcanism Laboratory at the University of Maryland, College Park
- Preferred start date is January 2021
- A funded project to study temporal variations in the decompression rate of magma erupted at Cinder Cone, Lassen Volcanic National Park, CA
- Ideal candidate is excited about:
  - Volcanoes!
  - Sample collection in Lassen Volcanic National Park, CA
  - Coding and Math
  - Searching for crystals under a microscope
  - Learning how to use analytical instrumentation (spectroscopy, electron microscopy, mass spectrometry)
- Click here for information on application requirements
