IMPORTANT DATES

- Monday, November 1: Spring 2022 registration opens based on earned hours.
- Monday, November 15: Fall 2021 Full semester and Express II Instructor-Course evaluations open.
- Thursday, November 18: Last day for students to withdraw with a status indicator of “W” from Express-2 classes. NOTE: Registration holds prevent students from being able to withdraw from a course in Banner Self-Service. Students should resolve their registration holds prior to this date if they wish to withdraw from a course.
- Wednesday - Sunday, November 24-28: Thanksgiving Holiday. No classes. (College closed November 25-28.)

SPRING 2022 REGISTRATION AND COURSE SCHEDULE UPDATES

Spring 2022 registration begins today, November 1 based on hours. NOTE: All GEOL and GENV majors have an advising hold. Holds will prohibit students from being able to register. You must communicate with your advisor about your plan for Spring 2022. This does not have to be an in-person meeting (email and Zoom are options). After a student communicates with their advisor, the advisor will submit a request to Dr. Callahan and Ms. White to remove the advising hold. If you do not know who your advisor is, please contact Dr. Callahan and Ms. White for assistance.

GEOL 402 and GEOL 469 NOTE: Due to a Registrar glitch, the department must enroll students in GEOL 402 and GEOL 469. If you wish to enroll in GEOL 402 or GEOL 469, please email Kristen White (whitekl@cofc.edu) when your registration has opened for assistance.

GEOL 395-01: Applied Paleontology and GEOL 395-03: Plate Tectonics NOTE: The Registrar’s system sees these courses as duplicates, and will not allow students to web register for both. If you wish to take both of these special topics courses in Spring 2022, please email Kristen White (whitekl@cofc.edu) when your registration has opened for assistance.

Geology & Environmental Geosciences electives and special topics for Spring 2022 are available for view here. Visit the Academic Information page on our website for advising charts designed to help you prepare your Spring 2022 registration plan.

SUMMER 2022 FIELD STUDIES

Planning to take Field Studies in Summer 2022? Complete this Google form poll to help us plan!
KUDOS

- Dr. Cass Runyon, director of NASA SC Established Program to Simulate Competitive Research (EPSCoR), and Tara Scozzaro, Program Coordinator of NASA SC EPSCoR, received a $1 million award through NASA SC EPSCoR. These funds will be provided to faculty and students through a competitive proposal process.

- Dr. Steven Jaume gave a presentation at the James Island Neighborhood Council about the earthquakes felt by many people in September. He will also be answering media inquiries regarding the recent earthquake swarm near Monticello Reservoir due to cooling water from the VC Summer nuclear power station. Links coming soon!

GEOLOGY CLUB

Join the next meeting on Wednesday, November 10th at 5:30pm in SSMB 211 for info on upcoming events and to play some bingo!
**SUSTAINABILITY LEADERSHIP TRAINING**

The C2C Fellows Network through Graduate Programs in Sustainability at Bard College in New York is hosting a skills-based virtual workshop on sustainability and skills to change the future. C2C training focuses on key leadership skills: vision, courage, developing your network, telling your story, and raising funds. Learn more about the program and apply here!

- Workshop date: Saturday, December 4 from 9 am – 5 pm EST
- Registration fee: $10
- Contact vn7229@bard.edu with questions.

**CALL FOR SUBMITTALS – JOURNAL OF SC WATER RESOURCES**

The Journal of South Carolina Water Resources (JSCWR) is seeking submittals related to South Carolina water resources or applicable to water resource professionals. JSCWR is an annual peer-reviewed journal dedicated to research and policy on water management to prepare for and meet the challenge of sustainably providing water resources for South Carolina while preserving its natural resources. The editorial committee is requesting Letters of Intent by November 10, 2021 and they can be emailed to dawnw@clemson.edu. Full submittals must be uploaded to the JSCWR website by February 21, 2022.

**JOB AND OPPORTUNITY BOARD**

- The Center for Ecosystem Science and Society at Northern Arizona University is seeking applicants for MS and PhD programs for the 2022-2023 academic year. Graduate student benefits include either a Teaching Assistant or Resident Assistant stipend, tuition waiver, and health insurance. Learn more about research projects here.
  - Priority deadline for NAU Presidential Fellowship: Wednesday, December 1, 2021
  - Application deadline: Saturday, January 15, 2022
- The Department of Environmental Science at the University of Arizona is seeking applicants for a PhD program entitled “Rock-plant interactions driving early soil development and landscape evolution.” Prospective students should hold a BS or MS degree in environmental science, geology, or other related field, and graduate student benefits include health coverage. Learn more about the program here.
  - Program start date: Winter 2022
- Tetra Tech is searching for environmental scientists to join their offshore wind permitting team. Job tasks include preparing construction and operation plans, conducting desk research and field surveys, coordinating subcontractors and agencies, preparing state permits, and studying submarine remote cables.
  - Details: Full-time position with immediate start date
  - Contact kori.ktona@tetratech.com for additional details
COFC FREE STORE

The CofC Free Store is a new resource for CofC community members through the Center for Sustainable Development. It is located behind the Center at 14 Green Way, and community members can donate (nearly) anything or take anything for free! They accept items such as clothing, lamps, games, school and kitchen supplies, and more.
